LIST OF TABLES

Table No. 4.1. Steps involved in On-line robotic method for Clopidogrel and its metabolite............ Error! Bookmark not defined.

Table No. 4.2. Steps involved in On-line robotic method for Carvedilol and its metabolite................ Error! Bookmark not defined.

Table No. 4.3. Aceclofenac Validation Summary .......... Error! Bookmark not defined.

Table No. 4.4. Back calculated concentrations from calibration curves for Artemether ................. Error! Bookmark not defined.

Table No. 4.5. Assessment of Accuracy and Precision for Artemether Error! Bookmark not defined.

Table No. 4.6. Stability Results for Artemether .... Error! Bookmark not defined.

Table No. 4.7. Back calculated concentrations from calibration curves for Alverine and P-Hydroxy Alverine .... Error! Bookmark not defined.

Table No. 4.8. Assessment of Accuracy and Precision for Alverine and P-Hydroxy Alverine .......... Error! Bookmark not defined.

Table No. 4.9. Stability results for Alverine and P-Hydroxy Alverine Error! Bookmark not defined.

Table No. 4.10. Back calculated concentrations from calibration curves for Clopidogrel and its metabolite Error! Bookmark not defined.

Table No. 4.11. Assessment of Accuracy and Precision for Clopidogrel and its metabolite................ Error! Bookmark not defined.

Table No. 4.12. Stability results for Clopidogrel and its metabolite Error! Bookmark not defined.

Table No. 4.13. Back calculated concentrations from calibration curves for Carvedilol and 4-Hydroxyphenyl Carvedilol Error! Bookmark not defined.

Table No. 4.14. Assessment of Accuracy and Precision for Carvedilol and 4-Hydroxyphenyl Carvedilol Error! Bookmark not defined.

Table No. 4.15. Stability results for Carvedilol and 4-Hydroxyphenyl Carvedilol ....................... Error! Bookmark not defined.
Table No. 4.16. Back calculated concentrations from calibration curves for Clonidine

Table No. 4.17. Assessment of Accuracy and Precision for Clonidine

Table No. 4.18. Stability Results for Clonidine

Table No. 4.19. Back calculated concentrations from calibration curves for Lumefantrine

Table No. 4.20. Assessment of Accuracy and Precision for Lumefantrine

Table No. 4.21. Stability results for Lumefantrine

Table No. 4.22. Back-calculated concentrations from calibration curves for Levetiracetam

Table No. 4.23. Assessment of Accuracy and Precision for Levetiracetam

Table No. 4.24. Stability results for Levetiracetam

Table No. 4.25. Back-calculated concentrations from calibration curves for Telmisartan

Table No. 4.26. Assessment of Accuracy & Precision for Telmisartan

Table No. 4.27. Stability results for Telmisartan

Table No. 4.28. Back-calculated concentrations from calibration curves for Ursodeoxycholic Acid

Table No. 4.29. Assessment of Accuracy and Precision for Ursodeoxycholic Acid

Table No. 4.30. Stability results for Ursodeoxycholic Acid

Table No. 5.1. Pharmacokinetic parameters of Aceclofenac for both of the preparations

Table No. 5.2. Pharmacokinetic parameters of Artemether for both of the preparations
Table No. 5.3. Pharmacokinetic parameters of Alverine and P-Hydroxy Alverine for both of the preparations. Error! Bookmark not defined.

Table No. 5.4. Pharmacokinetic parameters of Clopidogrel and its metabolite for both of the preparations. Error! Bookmark not defined.

Table No. 5.5. Pharmacokinetic parameters of Carvedilol & 4-Hydroxyphenyl Carvedilol for both of the preparations. Error! Bookmark not defined.

Table No. 5.6. Pharmacokinetic parameters of Clonidine for both of the preparations. Error! Bookmark not defined.

Table No. 5.7. Pharmacokinetic parameters of Lumefantrine for both of the preparations. Error! Bookmark not defined.

Table No. 5.8. Pharmacokinetic parameters of Levetiracetam for both of the preparations. Error! Bookmark not defined.

Table No. 5.9. Pharmacokinetic parameters of Telmisartan for both of the preparations. Error! Bookmark not defined.

Table No. 5.10. Pharmacokinetic parameters of Ursodeoxycholic Acid for both of the preparations. Error! Bookmark not defined.

LIST OF FIGURES

Fig.No.1.1. ESI process in the positive ion polarity mode. Error! Bookmark not defined.

Fig.No.1.2. APCI process in the positive ion polarity mode. Error! Bookmark not defined.

Fig.No.1.3. Infrastructure of Tandem Mass spectrometer. Error! Bookmark not defined.

Fig.No.1.4. Illustration of the Parent scan mode. Error! Bookmark not defined.

Fig.No.1.5. Illustration of Product scan mode. Error! Bookmark not defined.

Fig.No.3.1. Method Development on HTLC. Error! Bookmark not defined.

Fig.No.3.2. 3.5 pH Buffer Equilibrium LC Method. Error! Bookmark not defined.

Fig.No.3.3. 3.5 pH Buffer LC Method. Error! Bookmark not defined.
Fig.No.3.4. 6.8 pH Buffer Equilibrium LC Method.

Fig.No.3.5. 6.8 pH Buffer LC Method.

Fig.No.3.6. 8.0 pH Buffer Equilibrium LC Method.

Fig.No.3.7. 8.0 pH Buffer LC Method.

Fig.No.3.8. LC Optimization Method.

Fig.No.3.9. Generic LC Method.

Fig.No.4.1. Full Scan mass spectra’s for Aceclofenac and Diclofenac.

Fig.No.4.2. Full Scan mass spectra’s for Artemether & Ticlopidine.

Fig.No.4.3. Full scan Mass spectra’s for Alverine, PHA & Ticlopidine.

Fig.No.4.4. Full scan Mass spectra’s for Clopidogrel, its metabolite & Ticlopidine.

Fig.No.4.5. Full Scan Mass spectra’s for Carvedilol, 4-Hydroxyphenyl Carvedilol and Propranolol.

Fig.No.4.6. Full scan mass spectra’s for Clonidine and Ketoconazole.

Fig.No.4.7. Full scan mass spectra’s for Lumefantrine & Ticlopidine.

Fig.No.4.8. Full scan mass spectra’s for Levetiracetam & Rimantadine.

Fig.No.4.9. Full-scan mass spectra’s for Telmisartan & Ticlopidine.

Fig.No.4.10. Full scan mass spectra’s for Ursodeoxycholic Acid & Diclofenac.

Fig.No.4.11. Representative chromatograms from an extract of human Blank plasma spiked with out Aceclofenac and Diclofenac.

Fig.No.4.12. Representative chromatograms from an extract of human blank plasma spiked with Aceclofenac and Diclofenac[IS].
Fig. No. 4.13. Representative Linear calibration curve for Aceclofenac.

Fig. No. 4.14. Representative Chromatograms from an extract of human blank plasma spiked with and Ticlopidine.

Fig. No. 4.15. Representative Chromatograms from an extract of human blank plasma spiked with Artemether and Ticlopidine [IS].

Fig. No. 4.16. Representative Linear calibration curve for Artemether.

Fig. No. 4.17. Representative chromatograms from an extract of human blank plasma spiked without and with Alverine, PHA & Ticlopidine.

Fig. No. 4.18. Representative Chromatograms from an extract of human blank plasma spiked with Ticlopidine as IS.

Fig. No. 4.19. Representative chromatograms from an extract of human blank plasma spiked with Clopidogrel, its metabolite and Ticlopidine [IS].

Fig. No. 4.20. Representative Chromatograms from an extract of human blank plasma spiked with Propranolol [IS].

Fig. No. 4.21. Representative Chromatograms from an extract of human blank plasma spiked with Carvedilol, 4-Hydroxyphenyl Carvedilol and Propranolol [IS].

Fig. No. 4.22. Representative Chromatograms from an extract of Human blank plasma spiked with Ketoconazole [IS].

Fig. No. 4.23. Representative Chromatograms from an extract of human blank plasma spiked with Clonidine and Ketoconazole [IS].

Fig. No. 4.24. Representative Linear calibration curve for Clonidine.

Fig. No. 4.25. Representative Chromatograms from extract human blank plasma spiked with Lumefantrine and Ticlopidine [IS].

Fig. No. 4.26. Representative Linear calibration curve for Lumefantrine.
Fig.No.4.27. Representative Chromatograms from an extract of Human blank plasma spiked without Levetiracetam & Rimantadine [IS] Error! Bookmark not defined.

Fig.No.4.28. Representative Chromatograms from extract human blank plasma spiked with Levetiracetam & Rimantadine [IS] Error! Bookmark not defined.

Fig.No.4.29. Calibration curve for Levetiracetam Error! Bookmark not defined.

Fig.No.4.30. Representative Chromatograms from an extract of Human blank plasma spiked without Telmisartan & Ticlopidine Error! Bookmark not defined.

Fig.No.4.31. Representative Chromatograms from extract human blank plasma spiked with Telmisartan & Ticlopidine Error! Bookmark not defined.

Fig.No.4.32. Calibration curve for Telmisartan Error! Bookmark not defined.

Fig.No.4.33. Representative Chromatograms from an extract of Human blank plasma spiked without Ursodeoxycholic Acid & Diclofenac [IS] Error! Bookmark not defined.

Fig.No.4.34. Representative Chromatograms from extract human blank plasma spiked with Ursodeoxycholic Acid & Diclofenac [IS] Error! Bookmark not defined.

Fig.No.5.1. Mean Plasma concentration-time profile for Aceclofenac Error! Bookmark not defined.

Fig.No.5.2. Mean Plasma concentration-time profile for Artemether Error! Bookmark not defined.

Fig.No.5.3. Mean Plasma concentration-time profiles for Alverine and PHA Error! Bookmark not defined.

Fig.No.5.4. Mean plasma concentration–time profiles of Clopidogrel & Clopidogrel metabolite. Error! Bookmark not defined.

Fig.No.5.5. Mean plasma concentration–time profiles of Carvedilol & 4-Hydroxyphenyl Carvedilol. Error! Bookmark not defined.

Fig.No.5.6. Mean plasma concentration – time profile of Clonidine Error! Bookmark not defined.

Fig.No.5.7. Mean plasma concentration-time profile of Lumefantrine Error! Bookmark not defined.
Fig. No. 5.8. Mean plasma concentration-time profile of Levetiracetam

Error! Bookmark not defined.

Fig. No. 5.9. Mean plasma concentration-time profile of Telmisartan

Error! Bookmark not defined.

Fig. No. 5.10. Mean plasma concentration-time profile of Ursodeoxycholic Acid

Error! Bookmark not defined.
