INFORMED CONSENT FORM

QUESTIONNAIRE ON AGE AT MENARCHE

I Jyoti Sharma is conducting a study on 'Age at Menarche and Dietary Pattern of Girls. Your voluntary participation is requested so I may learn more about the subject of my study. My questionnaire will take approximately 5 minutes. Again, your participation is voluntary and you may choose not to answer any of the questions on the questionnaire even after signing the consent. If you are willing to participate please sign this form.

Yes, I_______________________ is aware of the facts of the study and I am not forced by any body to give this information on my personal health. I have no objection for providing this information for the use of research work, as the results will be useful for the benefit of the society.
