This endeavor would not have been attainable without the assurance of the presence of God Almighty, to whom goes all the glory and honor for the successful completion of this study, Who had been on my side when things were not going easy.

I take immense pleasure in expressing my sincere gratitude to my supervisor, Prof. (Dr.) Shyamal Koley, Dean and Head, Department of Sports Medicine and Physiotherapy, Guru Nanak Dev University, Amritsar whose timely advice, precious suggestions, in depth introspections have guided me for the accomplishment of this herculean task. Sincere thanks towards Mr. Rajiv Verma for his support and guidance.

I shall be failing in my duties if fail to acknowledge the cooperation provided by all my subjects without whose contribution this study could not have been completed. I owe a special regard and gratitude to them.

I am grateful to Almighty to have bestowed upon me the precious wealth in form of my parents especially, my mother, who constantly motivated me to achieve my goals, without her this thesis would have been just a dream. Their generous support, words of encouragement, precious blessings, silent prayers and millions of sacrifices have all amalgamated into the completion of this herculean task, I bow my head in gratitude for them. I am blessed with a supportive husband, Mayank and my darling daughter, Amaira, who have been my pillars of strength and constant motivation, I thank you for bearing with me, my shortcomings and my absence, I owe a lot to both of you.
