ACKNOWLEDGEMENTS

First and foremost I pay all my homage to the Omnipresent, Omniscient and Almighty God, The glorious fountain and continuous source of inspirations! I offer salutation to the Omnipotent nature.

I would like to express my sincere gratitude to my supervisor Professor Dr. Hitendra S. Joshi for accepting me as his student and who made this research a success. I am very much thankful to him for his enthusiasm and essential view on research work, followed by his motivation to provide contribution to chemistry. Besides being a wonderful guide, I am deeply honored to have in my life as he brightens my qualification on academic manner. I wish to convey my deep sense to him for all the guidance he provided me over the time of my academic years. There is no doubt that without his efforts the task would not be achieved. It is my great privilege to have such dedicated guide like him that provides dynamic encouragement to me.

I bow my head with utter respect to my beloved parents Mr. Pradyumanbhai C. Pandya and Mrs. Kusumben P. Pandya without whose blessing this task would not have been accomplished. I bow my head in utter humility and complete dedication from within my heart.

I would like to express my gratitude to Professor P. H. Parsania, Head and also Professor Anamik Shah, Department of Chemistry, as I have been constantly benefited with them achieved pragmatic direction. I will never forget teaching staff of department of chemistry for their constant inspiration with keen interest and ever vigilant guidance without which this task could not have been achieved.

An endeavor such as a Ph.D. is impossible to accomplish without the generous help and support of my family, friends and colleagues. I would like to take this opportunity to thank those whom I was fortunate to know, work and form friendship with over the past three years.

I devote my emotions to my beloved sister kajal vyas for her continuous source of inspiration, motivation and devotion to me, and my brother in law kartik vyas for the uncompromising principles that guided my life. At this happiest moment of my life how can I forget my dear nephew Naitik.
The present research work is beyond belief without the support of my friends who have contributed in numerous ways to my marathon journey for this research work. It is fact that without their constant positive attitude and never-ending patience, I could not able for the completion of my research work.

As with the completion of this task, I find myself in difficult position on attempting to express my deep indebtedness to, Javed Mahrrtar, Chintan Jani, Dr. Audich, Batuk Dabhi, Hasmukh Khunt, Kapil Bhesaniya, Satish Ghelani, Yogesh Azudiya, Sagar Gami, Rizwan Ghumara, Mitesh Gondaliya and all my colleagues.

Thank to my best friends in the Dr. H. S. Joshi research group like Dr. Kapil Dubal, Dr. Vijay Ram, Dr. Kaushik Joshi, Dr. Govind Kher, Dr. Bhavesh Dodiya, Dr. Renish Ghetiya, Dr. Piyush Vekariya, Paras Vekariya, Nirav Shah, Nayan panchani, Chirag Panera, Jalpa Pandya, Vaishali Goswami, Reema Rupareliya and my all research colleagues for their help and friendship which lighten my day and did not make me feel alone in my research work.

Big thanks to the staff at the Department of Chemistry and also to Mr. Harshadbhai Joshi and Mrs. Namrataben for their kind support and providing chemicals and glassware on time.

I also remember well wishers and all those persons who helped me directly or indirectly during my Ph.D.
