ACKNOWLEDGEMENTS

It is indeed a pleasure to thank Dr. Shahid Jameel, an excellent supervisor, without his extraordinary contribution this would have been impossible. I am most sincerely grateful to Dr. Jameel for his untiring and constant support and patience during every part of my studies here. His expert guidance and encouragement enabled me to take the first step in my scientific voyage.

I would like to thank Prof. A. Falaschi and Prof. V. S. Chauhan on behalf of all ICGEB team for giving me the opportunity to carry out my Ph.D. in this excellent research institute.

I am sincerely thankful to Md. Zafrullah for teaching me all the basic techniques in molecular biology, Ravinder Kumar for providing cells and teaching me the mammalian tissue culture, and Deepak Sehgal for his sincere attempt to teach Baculovirus system. I am thankful to my old colleagues Muneer Ahmed and L. Xiaofang for their help and friendship during their stay in ICGEB. I would like to acknowledge Milena for being a good neighbour, Suman for providing me purified protein and being a good friend. I would acknowledge new lab members, Khalid, Anindita, Charu, Rachna, Intikhab for their cooperation. My special thanks to Fahri for his excellent friendship and company for last several years. I am thankful to my friends Solliman, Gul and Asif for their friendship.

To the faculty members of ICGEB, Dr. K.V.S. Rao, Dr. V. Kumar, Dr. S. Lal, Dr. N. Khanna, Dr. C. Chitnis, Dr. S. Reddy, R. Bhatnagar, Dr. M. Mohan, S. Mukerjee, Dr. D. Sahal, Dr. S.K. Sopory, N. Tuteja and the members of CBT, JNU Dr. S. Kar, R. Bhatnagar, Dr. U. Pati, Dr. H.K. Das, Dr. K.J. Mukerjee, Dr. A. Dixit I extend a special acknowledgements for their invaluable teaching effort.
I am very thankful to my previous teachers Prof. Sait Bilgic, Prof. Cemil Celik, Prof. Nusret Ciftci, Prof. T. N. Karaismailoglu, and my old colleagues Dr. Hakan Ozdener, Dr. Bunyamin Sahin for their support and invaluable contribution into my scientific career in early days.

I would specially thank to my labmates Shweta for her great help in yeast two-hybrid system, Rashi for her proofreading effort, Jaya, Purnima, Milan, Attish, Tenzin, Neetu, Hung for their cooperation. I would also thank Kedar for his constant help whenever needed.

I extend my thanks to all colleagues and friends in ICGEB, particularly people in Immunology and RGP and Radha, Pratibha, Tina, Gita, Rekha for their constant help and friendship.

I am most sincerely grateful to my wife whose extraordinary support and encouragement made this possible. I would always remember my parents for their continues and untiring support and their blessing.
