ACKNOWLEDGEMENTS

Foremost, I bow to the ‘Almighty’ for giving me the wisdom and blessings for the successful completion of this work.

I express my extremely deep gratitude to my Guide Prof. (Dr.) A.K. Jain, Department of Environmental Science and Technology, Central University of Punjab, Bathinda. He has been always source of motivation and wisdom throughout the research work. I feel deep sense of obligation and indebtedness for my revered guide Dr. Sandeep Singh, Assistant Professor, Department of Human Genetics and Molecular Medicine, Central University of Punjab, Bathinda for his guidance, continuous inspiration, and creative suggestions throughout the tenure of present work. His friendly attitude of guidance, immense knowledge, keen interest, constant inspiration, and sympathetic understanding will always be acknowledged.

It’s my proud privilege to express my deep gratitude to honourable Vice Chancellor Prof. (Dr.) R.K. Kohli, and former Vice Chancellor Prof. (Dr.) Jai Rup Singh for providing me the entire infrastructure with excellent laboratory facilities, consumables and congenial working environment required for conducting the present research work. I am also thankful to Prof. (Dr.) P. Rama Rao, Dean of Academic Affairs, for his creative criticism and valuable suggestions during the tenure of investigation. I am grateful to him for his imperative suggestions and support with constant encouragement and valuable guidance. I offer my sincere respect to Prof. (Dr.) V.K. Garg, Coordinator of Department of Environment Science and Technology, for his worthy suggestions, and encouragement throughout this project.

I am especially thankful to Dr. J.N. Babu, Assistant Professor, Department of Chemical Science for helping me for GCMS analysis.
