ACKNOWLEDGEMENTS

“Every day I remind myself that my inner and outer life are based on the labors of other men, living and dead, and that I must exert myself in order to give in the same measure as I have received and am still receiving.” —— Albert Einstein
ACKNOWLEDGEMENTS

At the outset, I wish to express my deepest sense of gratitude to Defence Research and Development Organisation, Ministry of Defence, Government of India, for awarding fellowship to me and providing opportunity for entering the shrine of research.

Human life is the collection of choices that we make. In life, every opportunity has a shelf life and the choice has to be made within the shelf life. It is my Ph.D. supervisor, Prof. Satya Bhusan Paul, Department of Chemistry, Assam University, Silchar, Assam who is the root cause to utilise the opportunity and enter the world of research which opened to me a new eye to see the world in a different way. He had always been a springboard in my academic career.

I am grateful to my Ph.D. co-supervisor Dr. Hemanta Kumar Gogoi,.Sc. 'E', Deputy Director, Defence Research Laboratory (DRL), Tezpur for his guidance and guardianship throughout my research activities making it stand up to the test of reality. His invariable encouragement and support was a key factor to sustain through difficulties encountered from negative energies during the research work and personal life. His monochromatic good will toward me made this thesis a reality. But most of all I am grateful to him for being so concerned about me.

I am thankful to Dr. V. Veer, Director, DRL, Tezpur, for his kind support till completion of the thesis.

I would also like to express my gratitude to Dr. L. Singh, Director, Directorate of Life Sciences, DRDO, Ministry of Defence, Government of India (Ex-Director, DRL, Tezpur) for his invaluable words and encouragement during my research.

I wish to express my gratitude to Dr. R. B. Srivastava, Director, DIHAR, Leh (Ex-Director, Defence Research laboratory, Tezpur) for his advices and constructive criticism.

I am indebted to Prof. D. Biswas, Dean, Albert Einstein School of Physical Science, Assam University, Silchar, for his encouragement.

I am thankful to the former Head, Department of Chemistry, Assam University, Silchar for his kind permission and support to carry out my research work in the Department.

I owe to Prof. C. R. Bhattacharjee, Head, Department of Chemistry, Assam University, Silchar, for his time proven suggestions and help.

I am grateful to Prof. N. V. S. Rao, Department of Chemistry, Assam University, for his encouragement and well wishes.
Thanks to Dr. P. Mondal, Reader and Dr. M K. Paul, Assistance Professor, Department of Chemistry, for their well wishes and support.

My heartfelt thank to Dr. Sudip Chaudhury, Assistant Professor, Department of Chemistry, Assam University, Silchar (my Sudip Daa) for his elder brotherly attitude towards me.

All teachers and non-teaching staff particularly P. Ranesh, S. Bhattacharjee, B. Nath, J. Ahmad, A. Barthulya and all research scholars of Department of Chemistry, Assam University, Silchar for their kind cooperation.

I owe to Dr. P. Chattopadhyay, Sc. ‘D’ & Head, Division of Pharmaceutical Technology, DRL, Tezpur, for his guardianship attitude towards me and helping hand during studies on animal model.

I shall remain in debt forever to Dr. J. Das, Sc. ‘D’ DRL, Tezpur, for her kind cooperation during antimicrobial studies and all that she did for me.

My special thanks to Dr. R. S. Policegauh, Sc. ‘C’, DRL, Tezpur, for time to time generous help without a second thought.

I am thankful to S. Doley, T. O. ‘D’ for his helping hand towards me and providing fresh sample for tissue culture.

Heartiest thanks to Dr. K. Bhargava, Sc. ‘E’, DIPAS, New Delhi for M.A. D.-M.S.

I express my heartfelt thank to Dr. S. N. Dutta, Sc. ‘C’ and Dr. S. Chatterjee, Sc. ‘C’, DRL, Tezpur.

Thanks to B. Bailung, DRL, Tezpur for her generous effort during tissue culture; D. Goswami, B. Rabha, A. Agnihotri and S. Karmaker for their friendly attitude and help.

Thanks to J. Gogoi, S. Banerjee & A. Upadhyay, DRL Tezpur, for their help.

I am obligated to all the members of DRL family for their direct or indirect support during my study.

I am thankful to Dr. M. J. Bordoloi, Principal Scientist, NBST, Jorhat, Assam for his consistent generous support.

I ventilate my gratefulness to Dr. S. K. Srivastava, CIMAP, Lucknow for his kind suggestions and generous help.

Thanks to Dr. S. Phukan, BS, Shillong for authentication of plant sample.

I express my gratitude to Col. H. R. Batra and Maj. M. Singh of 155 Base Hospital, Tezpur, for their kind helps during microtoming the animal tissues.
I am thankful to Dr. A. J. Thakur, Department of Chemical Sciences, Tezpur University, for his help during NMR studies.

Thanks to Prof. Avasti, and Chiranjeev (Research fellow), Department of Chemistry, Delhi University, for recording three ¹H NMR spectra.

I am indebted to Prof. J. Kotoky, IASST, Guwahati, for providing mice for study on animal.

I would like to thank Head Prof. B. B. P. Gupta, Dr. D. Dey & Dr. W. Rynjah and Mr. J. M. Sohtun of SAIF, North Eastern Hill University, Shillong, for training on NMR and mass spectral experiment.

Thank are due the Director and Dr. Anil Kumar, Sc. ‘F’ of CIMAP, Lucknow for training on advanced instrumentation.

I am thankful to Director and librarian of IICB, Kolkata for library facility.

I am thankful to Dr. B. G. Unni, Dr A. Hazarika, Dr. R. Khan and Ms. D. Begum, NEIST, Jorhat for their unique help.

My heartfelt thank to Dr. Mukta Paul, for her understanding and sacrifice.

Thanks to Mr. Dilip Palong and Mr. Korimson Mili for their help during sample collection.

Perhaps the word thank lacks the capacity to express my gratefulness to my father (Maulana Matin Uddin Mazumder) and mother (Ms. Karimun Nessa Mazumder) for their nurturing, sacrifice and all that they did and doing for me.

Siblings Abida, Hamida, Sayida, Aslam and in laws Mastaque and Jarif for being supportive and their understanding.

Finally, I am thankful to the Almighty for removing the effect of all negative energies during this study.

Date: 15-10-2012

( AFJ AL HUSSAIN MAZUMDER )
