The Blissful day has finally arrived, with the immaculate blessing of God, to enlist the angels sent by him to give me a vital elevation in academic career after successful accomplishment of this Ph.D. thesis. First and foremost I offer my sincere gratitude to my supervisor, Dr. Verinder Kaur, Professor -Chemistry, Chandigarh University, who has supported me throughout my thesis with her patience and knowledge while allowing me the sovereign to work in my way. I attribute the level of my Ph.D. degree to her encouragement and effort, and without her, this thesis, would not have been completed or written. Throughout my research work, I have the opportunity to learn with sound advice, inspiration and excellent guidance under her supervision. I wish to thank Dr. Debarati Chakroborty, Associate Professor of Chemistry, Chandigarh University for providing a unique working environment in the laboratory for conducting experiment work that gave impetus to my research project. My sincere thanks to Dr.S.S. Sehgal (Dean R&D) Chandigarh University for his kind support and advice whenever I approached him for help and guidance.

A great word of thanks for Mr.Hitesh Kumar (Application Chemist WATERS INDIA) for his immense support, incredible perseverance and illuminating guidance for successful completion of my research work on Mass Spectroscopy experimental work. I am also thankful to Mrs. Dilshad Pullancheri and Mr.Arghya Acharjee (Sr.Application Chemist Waters Research Center Lab, Mangalore) for providing me the support on UPCC (Ultra Performance Convergence Chromatography) interpretation and analysis of the results. A mere word of thanks is inadequate for my dear wife Anupriya Dhir who inspired continuously and filled in me an unrocking determination to accomplish the task set for me. Her patience, spiritual powers and an ultra-cool nature to bear with my anger during the failures is appreciable. Without her, it would not have been possible to accomplish this task of Ph.D.
