The vegetation of Himalaya has attracted the attention of foresters and ecologist since long. Recognizing the lack of data regarding the compositional patterns of vegetation in a moist temperate forest of Garhwal Himalaya, the present study was undertaken for assigning species composition, diversity pattern and traditional species use, documenting species ranking, folk-taxonomy and erosion of knowledge regarding plant identification and uses between young generation and older generation.

Many people have facilitated the initiation and completion of this work. I am greatly indebted to my esteemed guide, Dr. D.P. Vashistha Professor, Department of Botany HNB, Garhwal University, Srinagar, for suggesting the problem, providing constant inspiration, encouragement, unfailing support and co-operation throughout the research work.

I am thankful to my esteemed Co-guide, Dr. Ashish Tewari Lecturer, Department of Forestry, DSB, Campus, Nainital, for their timely help, constant inspiration, encouragement, valuable and frank suggestions and fruitful discussions during the research work. Mere words can not express the extent of my thankfulness for this support and co-operation through the research work.

I am very extremely thankful to Dr. S.C Tiwari, Professor and Head, Department of Botany HNB, Garhwal University Srinagar for providing all facilities.

I am very thankful to Mr. Mukul Prakash, Executive Director, Center for Ecological studies, Appropriate Technology India, Ukhimath, Rudraprayag, for providing facilities and financial support during field work.

I am very thankful to Dr. N.P Todaria, Professor and Head, Dr. Sabyasachi Dasgupta, Lecturer Department of Forestry HNB, Garhwal University, Srinagar for helping me various ways and Dr. V.P. Bhatt, Lecturer Department of Botany PG, Collage Gopeshwar, for suggestion and helping me during field work.

I am also thankful to Professor. YPS Pangtey for helping me in identifying the plants and Professor. S. Chandra, Dr. Uma Palni, Professor and Head, Dr. Y.S Rawat, Reader, Department of Botany, and Dr. Jeet Ram, Reader Department of Forestry, DSB Campus, Nainital for helping me in various ways.

I am also thankful to Mr. Rohit Devlal, Manager Research, Dr. H.K Bagwari, Manager, Training Center for Ecological Studies, Appropriate Technology India, Ukhimath, Rudraprayag for co-operation me various ways in field work.
I am also thankful are due to Mr. M.S. Rawat, Ranger Kedarnath Wild Life Century, for giving permission to herbarium specimens and data collection from the study area.

I expressed to my cordial thanks to my friend Mr. Balwant, Pratap, Dinesh Giri, Sataya Rawat, Jagdish, Pankaj Joshi, Prem Prakash Nautiyal and Mis. Meenakshi, Sushma and all staff of Appropriate Technology India, for their moral support and stimulation in performing the present stage.

I expressed to my cordial thanks to Mr. Vivek, Vikash, Vipra Rautela and all scholars Department of Forestry HNB, Garhwal University, Srinagar, for co-operation me various ways in data analysis work.

Last but not least, I feel paucity of words to express adequately my gratitude to my loving wife Kiran, father, mother, uncle, aunt, father in low, mother in low, brothers, sisters and brother in low, sister in low and other family members whose love, blessing, constant encouragement and inspiration, made it easy to me to reach at this stage.
