ACKNOWLEDGEMENT

In the name of Guruji (my God), most Gracious, most Merciful

I wish to express my heartfelt gratitude to those who have contributed to this thesis and supported me in one way or the other during this amazing journey.

First, I am thankful to my supervisor, Dr. Amit Seth. Under his supervision, I learned how to define a research problem, find a solution to it, and finally publish the results. His deep insights helped me at various stages of my research.

I express my esteem and profound sense of gratitude to Prof. P.K. Khosla, Vice Chancellor and Prof. Anuradha Sourajan, Dean, Dept. of Biotechnology, Shoolini University, Solan, for their kind gesture regarding the permission and opportunity.

My sincere thanks must also go to the members of my thesis advisory Dr. Pankaj Chauhan, Dr. Aastha, and Dr. Chandrika Attri. I want to thank Dr. Kalpana Chauhan and Dr. Shashi Bhatia for their help and support.

To my seniors, lab mates and batch mates Poonam, Mamta, Kavita Bhatia, Abhishek Bhardwaj, Kanika, thank you for your guidance and help during my research work. Their timely help and friendship shall always be remembered. I would like to thank Rakesh bhaiya and Jai Singh bhaiya for their assistance during lab work.

My time at Shoolini was made enjoyable in great part due to my friends. Anju (totally lost), Janmeet (fights a lot) and Monty (hehe can’t say) that became a part of my life. The dinners (self cooking in hostel), celebrations, canteen (wastage of time and fake stories by
Monty), outing, picnics, general help and friendship were all greatly appreciated. I am grateful for time spent with roommate Sangeeta (best roomie in Shoolini), for my grad buddies (Veena, Raksha, Munish and Ranvijay), Ankit Dogra (for his moral support and long lectures), last but not the least Sushant for always listening to me whenever I was frustrated or mad even though he is not researcher but still he enjoys to listen my research work, for many other people and memories.

Of course no acknowledgments would be complete without giving thanks to my parents. They (Mom, Dad, Badi mom and Bade Papa) have given many worthy qualities in me and good foundation to meet life. They’ve taught me about hard work and self-respect, persistence and how to be independent. Mom, especially, was a great role model of flexibility, strength and character. I am grateful for them and no words that can express my gratitude and appreciation for all you’ve done and been for me. I still have not found the exact words that express how I feel for this woman and what her presence in my life has meant. She is amazing and supports me always. She loves me like no one else has and has changed me for the better. Thank you with all my heart and soul. Your unconditional love carries me all the way through life till now. Thanks Nani for your endless blessings. Thank you my bro (Ankush) and sis (Tabu) for making my life colorful!

Finally, I thank readers for reading my thesis.

Jyoti
