ACKNOWLEDGEMENT

The delightful moments eventually appeared after a long painful exhaustive phase and at this turning point of reality the author likes to express her deepest sense of gratitude and sincere indebtedness to Dr. Parimal Debnath, Professor, Department of Physical Education, Jadavpur University for his valuable guidance, supervision and creative ingenuity during the various phases of gestation of the thesis.

The author wishes to express her sincerest gratitude to Dr. (Mrs.) Pratima Chatterjee, Ex-Professor, Department of Physiology, University of Calcutta who has guided her in all aspects throughout the entire tenure of the research work.

The investigator takes this opportunity to express her sincere regards and gratefulness to Dr. Santa Datta (De), Reader, Department of Home Science, University of Calcutta for providing her all possible help and valuable suggestions regarding measuring of nutritional and health status in connection to the research work.

The researcher is also grateful to Dr. Swapan Kumar Bhattacharya, Reader, Department of Chemistry, Jadavpur University for his kind cooperation in providing instrumentation facilities in his laboratory.

The author has the proud privilege to express her gratitude to Dr. Siddhartha Datta, Professor and Head, Department of Chemical Engineering, now the Pro-Vice-Chancellor of Jadavpur University; Dr. Sumit Chowdhury, Envirocheck, Kolkata; Dr. U.K. Mukhopadhyay, Sr.Scientist and Ms. Avanti Roy, Environment Officer, West Bengal Pollution Control Board for their active help in data collection and analysis of air pollutants in two different regions of West Bengal.

She is grateful to Dr. Satipati Chatterjee, Ex-Professor, Department of Physiology, University of Calcutta for his helpful comments and valuable suggestions, encouragement and support.

Sincere thanks are also accorded to Dr. Pradip Kumar Sen, Professor, Department of Mathematics, Jadavpur University and Dr. Sugata Sen Roy, Professor, Department of Statistics, University of Calcutta for their help in statistical analysis and computational aspects.
Heart-felt thanks are extended to Dr. Sukla Bhaduri, Reader, Department of Geography, University of Calcutta for giving her clear idea regarding the geographical location of two areas of West Bengal.

Sincere thanks are also due to Mr. Nitesh Chandra Das, Ex-senior Draftsman, Department of Geography, University of Calcutta for sketching the map of two areas in West Bengal.

She also gratefully acknowledges the sincerest cooperation and advice extended to her by Dr. Gopal Chakraborty, Reader and Dr. Sudip Sundar Das, Head and Sr. Lecturer, Department of Physical Education, Jadavpur University.

The author is fortunate enough to work with many coaches in different sports disciplines who always helped her in the research work. She pays her regards and warm thanks to their honour. She conveys her sincere thanks to the authorities of all clubs and schools for their help in her investigation.

She also likes to record her sincere acknowledgement to Ms. Chandana Bera and Ms. Radha Kar, Research Worker, Department of Physiology, University of Calcutta.

The Librarian and other members of Library staff, Department of Physical Education, Jadavpur University and West Bengal Pollution Control Board extended her all needed facilities from the library and the author is really indebted to all of them.

The author expresses her indebtedness and heartfelt thanks to Dr. Pinaki Chatterjee, Department of Physiology, Nepalgunj Medical College, Nepal who proved to be a constant inspiration.

She is thankful to all her friends for their invaluable support in various ways, which enabled her to carry out this research.

Finally, it will be an act of sheer ingratitude on her part if she does not put in record her debt and gratitude to her parents and her family who always gave her inspiration to complete work smoothly and without tension. Once again she bows her head to them for their abundant support, never ending patience and understanding and their love.
