Acknowledgements

Nothing has the power to broaden the mind as the ability to investigate systematically and truly all that comes under the observation in life.

This thesis arose in part out of years of research that has been done since I came to department. By that time, I have worked with a great number of people whose contribution in assorted ways to the research and the making of the thesis deserved special mention. It is a pleasure to convey my gratitude to them all in my humble acknowledgement. First and foremost, I acknowledge the Almighty for His miraculous help to me in undertaking my work and covering this journey peacefully.

I express my profound sense of reverence to acknowledge the enthusiastic supervision of my worthy mentor, Dr. Subodh Kumar, Professor, Department of Chemistry, Guru Nanak Dev University, Amritsar, for introducing me to fanatical field of research. I would like to thank him for his excellent guidance, generous support, wholehearted assistance, academic advice, patience, understanding, expertise, suggestions in conducting my research, especially for his encouragement of independent thinking and allowing my freedom to pursue my interests. From him, I learned not only the knowledge and scientific skills, but also the love of science and hard work that helped me transform into a scholar. I sincerely believe that without his suggestions, this work would not have been completed. The past years will be an invaluable asset from which I will be benefit during the rest of my life.

I am also indebted to extend my gratitude to Dr. Prabhpreet Singh, Assistant Professor, Department of Chemistry, Guru Nanak Dev University, Amritsar, whose essentially unshakable dedication, diligent efforts, constant encouragement and support have allowed me to complete this research work.

I am also thankful to the Prof. Balwinder Singh Randhawa, Head, Department of Chemistry, Guru Nanak Dev University, Amritsar, for providing the laboratory facilities for completion of this work.

I owe my sincere gratitude to Dr. Geeta Hundal and Dr. M. S. Hundal, Professor, Department of Chemistry, Guru Nanak Dev University, Amritsar, for collecting single crystal X-ray data and solving the crystal structures of molecules synthesized during this research.
The precious suggestions and encouraging words from my past and present lab mates Dr. Navneet Kaur, Dr. Vijay Luxami, Dr. Kulfjeet Kaur, Dr. Ashwani Kumar, Rajnish Saini, Rahul Kumar, Sana, Neetu Tripathi and Amanmeet Kaur and for maintaining a very cordial atmosphere for working in laboratory are sincerely acknowledged. My friends Vikas Kumar and Mukesh Sarangal are also highly acknowledged for their unconditional help, support and inspiration.

I also take the opportunity to thank non-teaching staff of the department for providing administrative and other assistance during this period.

The financial support from DST and CSIR, New Delhi is gratefully acknowledged.

Finally, I take this opportunity to express my heartiest regards and gratitude to my mother and father for their commitment to my ambition, affectionate company, moral support and selfless personal sacrifices, my brother and bhabi for constant source of motivation that helped me throughout my work, I am also indebted to all my family members, friends and well-wishers for their encouragement.
