LIST OF TABLES

Chapter 1  Introduction

Table 1.1. Maintenance costs of typical industries 3
Table 1.2. Fault occurrence probabilities 4

Chapter 2. Machine, Fault and Fault Diagnosis

Table 2.1. Characteristics (√) of primary faults for different 42
components

Chapter 3. Modeling of Fault Detection and Fuzzy Diagnosis

Table 3.1. Rule base in Logical form 83
Table 3.2. Results for Motor Health 88
Table 3.3. Recommended temperature and humidity values 96
Table 3.4. Rule Base for Environment FIS 108
Table 3.5. Rule Base for Oil Tank unit 116

Chapter 4  Hardware Implementation of Fault Detection and
Fuzzy Diagnosis

Table 4.1. Electrical Specifications of Current Transformer 143
Table 4.2. CAN Communication Frames 174
