ACKNOWLEDGEMENT

Though only my name appears on the cover of this dissertation, great many people have contributed to this. I owe my gratitude to all those people who have made this possible and because of whom I cherish my experience forever.

My heartfelt thanks to Thiru. A.C. Shunmugam, Founder, and Thiru. Er. A.C.S. Arunkumar, President of Dr.M.G.R. Educational and Research Institute University for providing me an opportunity to pursue my Ph.D.

I sincerely thank, the Vice Chancellor Prof. Dr. K. Meer Mustafa Hussain, Dean Research Dr. N. Thirunavukkarasu, Research Coordinator Dr. Rama Vaidyanathan, Head Biotechnology, Dr. Rajeshwari Hari and all other staffs of Dr. M.G.R. University for their support.

My deepest gratitude is to my guide, Dr. C. Saravana Babu, who had been constantly guiding and encouraging during my Ph.D and who had also recovered me whenever I faltered in my steps. His insightful comments and constructive criticisms at different stages of my research were thought-provoking and helped me to focus and enrich my ideas. His patience and support had helped me to overcome many critical situations and to complete this dissertation.

I thank my external advisor, Dr. S. S. Murugan, for sparing his valuable time amongst the busy schedule. I am deeply grateful to him for his support and guidance that helped me to perk up in my research.

My grateful thanks to Dr. B. V. David, my well-wisher and philosopher who encouraged and advised me to do Ph.D and who had held me to a high research standard. I am indeed indebted to him for his continuous encouragement and support.
My sincere thanks is to Professor Dr. S. Thanikachalam, Director, Center for Toxicology and Developmental Research, Sri Ramachandra Medical University, for providing me permission to carry out my research work. My heartfelt thanks to him for his help and advice that made me to surmount crucial circumstances.

I sincerely appreciate and thank the efforts of Ms. P. Kalaivani for helping me in various domains of my research. I also thank Dr. Anita, Dr. R. Barathidasan, Dr. H. Sumathy and other friends of CEFT for their support.

My thanks to the poor creatures, Rats, for sacrificing their life for the sake of welfare of the mankind.

Last but not the least; I am indebted to my parents, my husband and my son without whose support none of this would have been possible. I extend my deepest thanks to other family members for their constant support, sacrifice and encouragement throughout this endeavor.

Finally, I thank the almighty for having made everything possible by giving me strength and courage throughout the endeavor, and for the wisdom and perseverance that has been bestowed upon me during the research and indeed throughout my life.

(PRAMILA B)
