ACKNOWLEDGEMENT

I am thankful to the Almighty for the wisdom and perseverance that he has bestowed upon me during the research work. I am grateful to him for providing me this opportunity and granting me the capability to proceed successfully.

The successful completion of this work was made possible through the invaluable contribution of a number of people to whom I would like to express my deepest gratitude.

Foremost, I would like to express my deep and sincere thanks to my supervisor, Prof. (Mrs.) Rajesh Dhankhar, Head Department of Environmental Sciences, M.D. University, Rohtak. Her wide knowledge and logical way of thinking have been of great value for me. Her encouraging and personal guidance has provided a good basis for the present thesis.

It is my pleasure to thank Dr. J. S. Laura, Dr. Meenakshi, Mr. Sunil Yadav, Mrs. Rachna Bhateria, Dr. Geeta Dhaniya and Dr. Babita Khosla for their valuable advice. Their extensive discussions around my work have been very helpful for this study.

I wish to express my warm and sincere thanks to all Non-teaching staff members of Department of Environmental Sciences, M.D.University, for their support in any respect during the completion of the work.

The generous support from my lab-mates Mrs. Anju Hooda, Mrs. Poonam Ahlawat Sainger and Mrs. Hemlata is greatly appreciated. They have inspired me in research and life through our interactions during the long hours in the lab. I am equally thankful to my friends- Seema Didi, Kshama Didi, Seema Dhankhar, Shivani Kachroo, Nidhi Chauhan, Vedpriya, Babita and Chanda for their help and moral support during this journey.

My deepest gratitude goes to my family for their love and support throughout my life. I am indebted to my father Mr. Ranbir Singh Solanki for providing me continuous motivation and courage to face the complexities of life and complete the thesis successfully. It is hard to express my gratitude
for my mother Mrs. Prem Solanki, whose unconditional love has been my greatest strength. I sincerely acknowledge the loving support of my grandmother, uncles, aunts, brothers and sisters. Their constant inspiration and guidance kept me focused and motivated.

The financial support of Department of Environmental Sciences, Maharshi Dayanand University, Rohtak and Department of Science and Technology, New Delhi, is gratefully acknowledged.

Radha Solanki
